

PRESIDENT: All right. We'll pass motions and go to resolutions. LR 163.

CLERK: Mr. President, (Read LR 163). Mr. President, that resolution can be found on page 628 of the Legislative Journal.

PRESIDENT: Senator Schmit.

SENATOR SCHMIT: Mr. Chairman, and members of the Legislature, I would believe that perhaps Senator Rumery wishes to comment on this resolution also and perhaps some of the other members who have signed it, but I just want to say that the resolution was introduced in the honor and the memory of a very fine member of the faculty of the University of Nebraska of the East Campus, Dr. Crowe, worked there for many years. He was a leader in his field. He was a challenge to all the young people who came before him and set a fine example for many people who went through that institution. He established high levels of integrity and honesty and dignity for the profession that he represented and I think that the resolution is a very small token of appreciation by this body which continually finds itself sometimes under the gun for some of the activities of people who perhaps are in the educational field who do not always meet the high requirements that other people like to set for them. I think Dr. Crowe typifies the very best of education and therefore I move the resolution be adopted. I would like to ask Senator Rumery to make a few comments at this time.

PRESIDENT: Senator Rumery.

SENATOR RUMERY: Mr. President, members of the body, several of us had the great privilege of being students of Dr. Crowe through his teaching and research assignment at the University of Nebraska College of Agriculture and I'd like to simply add my voice to the great respect in which Dr. Crowe has always been held and I hope that we can pass this resolution in honor of him so that his family may understand the contribution that he has made to people of the State of Nebraska.

PRESIDENT: Senator Kremer.

SENATOR KREMER: Mr. Chairman, just a short word in support of this resolution and the one following. I'll do both at the same time. I knew both of these men. In fact they were profs. when I went to school there. I, along with many many others had the deepest respect for both of these men and I think it's only fitting and it's one little thing that we can do here in this body to be an encouragement to the family at this time. So I do support the resolution. I think we all should pass it without hesitation.

PRESIDENT: Any further discussion on the resolution? Senator Schmit, are you ready for the question? All right. The question then is the adoption of LR 163. Record your vote. Have you all voted? Senator DeCamp. Record.

CLERK: 26 ayes, 0 nays on the adoption of the resolution, Mr. President.

PRESIDENT: The resolution passes. We now go to LR 164.
